

FC ON THE FC LECTURES

“A highlight of the Florida College year, and one of the means by which the College takes the education above the norm and beyond the classroom, is the annual lectureship, a tradition since the College’s beginning. Each year the Biblical Studies faculty selects a Bible-related theme, plans the program, and invites speakers from across the country and around the world. The lectures offer the Florida College community and a host of visitors to campus excellent studies on the year’s theme; a lecture book collects these studies and extends their availability.”
